B. Work in small groups. Practice introductions. Follow the instructions below.

a) Introduce yourself.

b) Introduce a new team member

5. LANGUAGE USE

Let's go over some examples and rules for the following topics:

- ✧ Personal Pronouns, Possessive Adjectives, Demonstratives
- ✧ Use of the verb To Be and There + Be.
- ✧ Sentence structures to describe roles (e.g., "I'm a website developer".)

Examples

I'm a software developer.

My name is Natasha. What's your name?

His job is ...

Hi, this is Ingrid.

It is important for the team...

1. I → **Personal Pronoun**

2. My, your, his → **Possessive Adjectives**

3. This → **Demonstrative Pronouns**

4. 'm / is → **Verb To Be**

When do you use personal pronouns, possessive adjectives, and demonstratives?

- **Personal pronouns** (I, you, he, she, etc.) are used to replace nouns and refer to people or things.
- **Possessive adjectives** (my, your, his, her, etc.) show ownership or relationships.

Demonstrative Pronouns (this, that, these, those) point to specific people or things, depending on their number (singular/plural) and distance (near/far).

Personal Pronouns	I	I am a developer.
	You	Are you the client?
	He	He is the Scrum Master.
	She	She is new in the project.
	It	It is the daily Scrum meeting.
	We	We are the development team.
	They	They are from Argentina.

Possessive Adjective	My	My task is to test the product.
	Your	Your meeting starts at 9 a.m.
	His	His plan is in the backlog.
	Her	Her goal is clear.
	Its	Its name is Daily Stand-up.
	Our	Our client is very happy.
	Their	Their sprint ends on Friday.

Demonstrative Pronouns	This (Singular/Near)	This is Ingrid.
	That (Singular/Far)	That is the old product.
	These (Plural/Near)	These are the tasks for this sprint.
	Those (Plural/Far)	Those are last week's backlog items.

Present tense of *BE*

We use be to say who somebody is or what something is.	<i>I'm Sam.</i>	<i>I am Sam.</i>
	<i>You're/We're/They're from the UK.</i>	<i>You/ We/They are from the UK.</i>
	<i>He's/She's a website developer.</i>	<i>He/She is a website developer.</i>
	<i>It's in the US.</i>	<i>It is in the US.</i>
We use be to ask personal questions.	<i>Where are you from?</i>	
	<i>What's his name/job?</i>	<i>What is his name/job?</i>

Important structures:

A programmer is in charge of (V+ing)

He/She is responsible for (V+ing) ...

You can also use the **verb To Be** in a common phrase to describe people's duties.

What is a duty?

It's a task or action that one is required to perform as part of one's job.

Examples

- ✧ A front-end web developer **is in charge of** making sure that there are no errors or bugs on the front end.
- ✧ A front-end web developer **is responsible for** making sure that the design appears as it's supposed to across various platforms and browsers.

THERE + BE

Let's pay attention to the following structure in English.

This is used to talk about 'existence'.

Structure	Example
Affirmative	There is a task in the backlog. There are many developers.
Negative	There isn't a meeting today. There aren't any clients now.
Yes/No Questions	Is there a sprint this week? Are there tasks to do?
Wh- Questions	What is there in the backlog? How many tasks are there?

ARE YOU READY TO PRACTICE?

6. GRAMMAR SECTION

A. Complete this email with *am, is, are, their, our or my*.

Dear Colleagues

3. Milo is a **database analyst / software developer / security analyst**.
4. Betty **is / isn't** a website designer for E-commerce.

3. LANGUAGE USE

Present simple	Examples
We use the present simple to talk about routines and things that are permanent or happen all the time.	What do you do ? I'm a programmer. What does she do ? She's a developer. Where does she work ? She works for IBM in Poland. She doesn't work in Estonia. Where do they work ? They work for Siemens in Egypt. Do you work in IT? Yes, I do . No, I don't .

Present Simple – Structure & Use

 Affirmative	 Negative	 Interrogative
Subject + base verb (+s)	Subject + don't / doesn't + base verb	Do / Does + subject + base verb?
I work every day.	I don't work on weekends.	Do you work on weekends?
She works in a team.	She doesn't like bugs.	Does she like testing?
They play football on Sundays.	They don't play in the rain.	Do they play in a local team?
He studies at the university.	He doesn't study at home.	Does he study every day?

ARE YOU READY TO PRACTICE?

4. GRAMMAR SECTION

-? I have a salad for lunch.
- ? No, I don't meet every day.
-? He gets up at 7 o'clock.
-? I study English twice a week
-? She works in a software company.

B. Look at the list of daily activities and match them with the emoji. Can you add more tasks?

A. Fix bugs	
B. Have a coffee	
C. Write code	
D. Check the task board	
E. Join the Daily Scrum	
G. Take a break	
 <i>Any other ideas?</i>	
.....	
.....	
.....	
.....	

5. SPEAKING SECTION

Work in pairs/ groups. Ask and answer questions about the jobs in ex. A - VOCABULARY.

Example: A: What does a (software) developer do?

B. Read the following article and **complete with the words from exercise A.**

Attention! There are TWO words you don't need to use.

What words are they?

"The Daily Scrum Meeting"

Every morning, there is a _____. The team talks about the _____. This meeting is the daily _____. It is important for the team because the developers and _____ say what they do. They also talk about problems and _____. Firstly, the _____ looks at the backlog which is a list of _____. During the meeting, each person talks about their _____. Time management is crucial here. There is no time to talk too much. The meeting is short; it is about 15 minutes. People stand in the meeting and this helps them stay focused.

Communication with the _____ is very important. The _____ talks to the client and ensures that they convey realistic expectations. If they don't _____ something, they _____ it in the next _____.

C. Decide if the sentences are **TRUE** or **FALSE**.

1. The meeting is at night. _____
2. The Scrum Master checks the backlog. _____
3. The meeting is 30 minutes long. _____
4. The team talks to the client. _____

D. **Answer** the questions about the information from the text **in a complete form**.

1. What do developers and testers talk about?

2. What is the backlog?

3. Why do people stand in meetings?

2. LISTENING

A. **Watch the video** about the tasks developers do in a scrum meeting. ([LINK](#))

B. Read the sentences and write **True or False**.

1. The Sprint plan is always the same. _____
2. Developers update the Sprint Backlog every day. _____
3. The Daily Scrum is 30 minutes long. _____

C. **Fill in the gaps** with the missing words **while watching the video**.

- The Daily Scrum is not a _____ meeting.
- It's a _____ planning event for the _____ to their day and figure out how they are going to _____ together and support each other to do the necessary work and _____ on the _____ goal.
- The Daily Scrum is the place to make sure that all _____ or blockers are visible.
- The Daily Scrum is also not the place for deep-dive _____
- A time-boxed daily _____ to plan their day and adjust their Sprint Backlog.

3. LANGUAGE USE

Time Expressions

Let's take a look at some rules to use Time Expressions and Adverbs of Frequency with the Present Simple.

These words show when or how often something happens. They usually go at the end or beginning of the sentence.

Examples:

- ✧ **every day, on Mondays, in the morning, at 9 a.m., after lunch**

Examples in use:

- ✧ I start work at 9 a.m.
- ✧ She checks the tasks every morning.

Adverbs of Frequency

These words show how often an action happens. They go before the main verb or after "be".

Adverb	Meaning	Example
always	100% of the time	<i>I always join the Daily Scrum.</i>
usually	80%	<i>She usually fixes bugs.</i>
often	60%	<i>We often test new features.</i>
sometimes	40%	<i>He sometimes needs help.</i>
rarely	10%	<i>They rarely change the Sprint.</i>
never	0%	<i>I never skip the meeting.</i>

ARE YOU READY TO PRACTICE?

“How often do you...?”

A. Read the list of activities and say or write how often you do them.

- check your email
- attend the Daily Scrum
- write code
- fix bugs
- use the Sprint Backlog
- talk to your teammates
- take a break
- push code to GitHub
- update the task board
- drink coffee during work
- ask for help
- test a new feature
- start work before 9 a.m.
- work on the weekend
- join a sprint review

B. **Word Sorting:** Sort these into two groups: Tools and actions

collaborate, backlog, plan, sprint plan, support, product increment, update, deliver.

TOOLS	ACTIONS

C. Choose 4 (four) words from the previous exercise and write meaningful sentences.

SCHEDULES

In this section we are going to deal with structures used to talk about schedules.

1- LISTENING

A. Listen to two people at an IT conference. Complete their dialogue.

Penelope: Hi, Don. (1) are you?

Don: I'm (2) thanks, Penelope. And you?

Penelope: I'm OK. Bit tired from the flight.

Don: Right.

Penelope: (3) workshop (4) you want to attend today, Don?

Don: I want to go to the CISCO network security workshop.

Penelope: Sound interesting. What time does it start?

Don: It (5) at 9.15

Penelope: And (6) does it finish?

Don: It (7) at 4.00 in the afternoon.

Penelope: Well, I (8) to attend the Microsoft Windows Applications workshop. It

(9) at 8.30 am and (10) At 6.00 pm. But they have two breaks, at 10.30 and 12.45.

Don: That's good.

Penelope: Hope you enjoy your session.

Don: You too. See you around.

2- LANGUAGE USE

Simple Present for Future Events: Function

We use the simple present make statements about events at a time later than now, when the statements are based on present facts, and when these facts are something fixed like a timetable, schedule, calendar.

Present simple	Examples
What time does it start/ begin/ finish/ end?	It starts at 9.15.
	It begins at 8.30.
	It finishes at 4.00.
	It ends at 5.05.
When do you have a break?	We have a break at 12.45.

Key Notes:

- Add **-s** or **-es** for **he / she / it** in the affirmative.

Ex: He writes code. / She fixes bugs.

- Verbs ending with consonant and "y": Change "y" for "ies"

Try-> tries - Fly-> flies

- Use **do** for **I/you/we/they**; **does** for **he/she/it**.
- The main verb always goes in base form in negative and questions.

Ex: He *doesn't* test, not "tests".

3- VOCABULARY

A- Asking for the Time.

We usually ask for the time right now are with these questions:

- What time is it?
- What is the time?

A more polite way to ask for the time, especially from a stranger is:

- Could you tell me the time please?

When we ask what time a specific event will happen, the common questions are:

- What time...?
- When...?

Examples: What time does the flight to New York leave?
When does the bus arrive from London?
When does the workshop begin?

B- Telling the time.

There are two common ways of telling the time.

1) Say the hour first and then the minutes. (Hour + Minutes)

6:25 - It's six twenty-five

8:05 - It's eight O-five (the O is said like the letter O)

9:11 - It's nine eleven

2:34 - It's two thirty-four

2) Say the minutes first and then the hour. (Minutes + PAST / TO + Hour)

For minutes 1-30 we use **PAST** after the minutes.

For minutes 31-59 we use **TO** after the minutes.

2:35 - It's twenty-five to three
11:20 - It's twenty past eleven
4:18 - It's eighteen past four
8:51 - It's nine to nine
2:59 - It's one to three

When it is 15 minutes past the hour we normally say: (a) **quarter past**

7:15 - It's (a) quarter past seven

When it is 15 minutes before the hour we normally say: **a quarter to**

12:45 - It's (a) quarter to one

When it is 30 minutes past the hour we normally say: **half past**

3:30 - It's half past three (but we can also say three-thirty)

C- Prepositions of time. IN – ON – AT

We use prepositions of time to talk about time and to describe when something happened. In English there are different ways to talk about time for example:

When is your birthday? It's in March.

What time do you work? I start at 6 o'clock.

When is Jack's party? It's on Friday.

But when do we use each preposition?

Look at the diagram below.

D- Spelling

In the world of software development, we use and see a lot of acronyms. That is why we need to know how letters are pronounced.

Let's see some examples.

4- LISTENING

Listen and complete the dialogue.

Andrei: Bob, can you (1)..... me, please?

Bob: Sure.

Andrei: I don't understand this acronym. What does it (2) for?

Bb: Let me see. 'W3'. I 'm not sure. Maybe WWW, the World Wide Web.

Andrei: OK. What does P2P stand for?

Bob: (3) stands for person-to-person.

Andrei: OK. What does IP (4) ?

Bob: It means Internet Protocol.

Andrei: How do you (5) 'Protocol'?

Bob: p - r - o - t - o - c - o - l.

Andrei: Thanks.

Bob: You're welcome.

5- WRITING

Look at the schedule of a Web Developer. Write about her/ his daily routine at work.

Time	Task / duty
8.00 – 9.00	Standup meeting
9.00 - 11.30	Writing code
11.45 – 13.00	Committing code and making pull requests
13.00 – 14.00	Lunch
14.00 – 16.00	Reviewing code
16.00 – 18.00	Avoiding bugs

You can start like this: *He starts working at 8 o'clock.*

5- SPEAKING

7th International Conference on Applied Informatics is being organized.

Look at the schedule. Work in pairs/ groups. Ask and answer questions about the time the workshops are.

Example: A: What time does the Artificial Intelligence workshop start?
